

Commissioning Engineer - based Adelaide with interstate travel

- **Market leading Australian Company**
- **Dynamic role in a fast paced environment**
- **Access to World Class Training**

Desalination and water recycling is a rapidly growing industry. Osmoflo Pty Ltd is the leading Australian-owned designer, manufacturer, deliverer and operator/maintainer of desalination and water recycling plants. We are also well known within the industry for our commitment to customer service; the use of state of the art technology and our staff have access to world class training. The company is rapidly growing and oversees operations and maintenance at more than 120 locations across Australia. In response to this growth, we are seeking to employ an experienced Commissioning Engineer to join our Central Engineering team based in Adelaide.

As a Commissioning Engineer the type of activities your will be responsible for are:

- The preparation for site commissioning, establish scope of works, materials and paperwork required (in conjunction with the Project Team).
- To commission manufactured plants in house and onsite.
- To support engineering, contracts and operations staff and train customers in plant maintenance and operations.
- Co-ordinate quality documentation requirements with Customer and Sales department.
- Excellent customer orientation, willingness to deal with people and to be flexible to meet customer demands.

Your success in this position will be depend on your ability to communicate effectively with all types of people coupled with a Tertiary Engineering or Electrical Trade qualifications and site experience. A high regard to safety is also compulsory. Desalination process knowledge and a working knowledge of PLC's would be an advantage.

This role requires the ability to travel and presents an exciting opportunity to work in a challenging environment and rapidly developing company.

To apply, please forward a covering letter and your resume to staff@osmoflo.com.au quoting reference number CE0119
