

Control Centre Operator

- **Water Treatment & Recycling**
- **Dynamic role in a fast paced environment**
- **Market leading Australian Company**

Desalination and water recycling is an industry of the future. Osmoflo Pty Ltd is the leading Australian owned manufacturer of water desalination and recycling equipment. The company is rapidly growing and oversees operations and maintenance at more than 120 locations across Australia. In response to this growth, we are now seeking four Operators to establish a new 24/7 Control Centre at our Burton factory in Adelaide's northern suburbs.

The control centre, part of Osmoflo's Operations and Maintenance Division, will need high caliber people who can provide a rapid response to customers. We want to ensure that our valued customers experience excellent ongoing service in response to faults and queries, and we maintain accurate operations and maintenance data through Osmoflo's unique Plant Connect communications system.

If you have good verbal and written communication skills, trade or technical qualifications, sound computer skills, a love of dealing with people and solving problems, then we would like to hear from you. Full on the job training will be provided. These are shift work positions which come with an attractive salary package.

To apply, please send a covering letter and your resume to:

**Human Resources
PO Box 314, Rundle Mall SA 5000
staff@osmoflo.com.au**

**Personal applications only
Please no agencies**

Only those candidates that are shortlisted for interview will be contacted
