

Sales Opportunity

- **Technical Sales Roles**
- **Industrial Water Treatment**
- **Dynamic company**

Desalination and water recycling is an industry of the future. Osmoflo Pty Ltd is the leading Australian owned manufacturer of water desalination and water recycling equipment. Osmoflo has an excellent reputation in the market for quality, innovation and flexibility. It is well known in the industry for its commitment to customer service and use of state of the art technology.

As the result of business growth, we are seeking to appoint experienced Technical Sales Staff to join our National Sales team. More than one position is available. Key responsibilities of the role include:

- Proactively source new sales opportunities and build relationships within Australian and overseas markets
- Prepare technical submissions and presentation to customers
- Develop and implement business plans
- Assist in the preparation of tender documents and proposals

To be considered for this opportunity, candidates should have an engineering background and/or experience in a similar industrial / technical sales role. Experience in desalination and microfiltration will be highly regarded. A self starter, you will have a high degree of self-management and be able to demonstrate your experience in achieving sales targets and excellent commercial results. A confident communicator you will be comfortable in technical presentations and have a high standard of written communication.

We believe this role represents an exciting career opportunity for experienced technical sales professionals to be key players in a dynamic and growing company. Applications quoting TSR1002 in the subject line should be forwarded to:
