

Technical Service Engineer

- **Water Treatment & Recycling**
- **Dynamic role in a fast paced environment**
- **Market leading Australian Company**

Desalination and water recycling is an industry of the future. Osmoflo Pty Ltd is the leading Australian owned manufacturer of water desalination and water recycling equipment. We have an excellent reputation in the market for quality, innovation and flexibility. We are also well known within the industry for our commitment to customer service and use of state of the art technology.

We are seeking to appoint a Technical Service Engineer for our NSW operations based at Silverwater.

Responsibilities:

- Routine operation and maintenance of water treatment plants in metropolitan and country locations;
- Troubleshooting;
- Commissioning.

This role will appeal to a person from a trade or engineering background seeking a change from their current routine. This is a hands on role that will require a mechanical ability and process aptitude; an electrical license will be highly regarded.

Requirements:

- Mechanical hands on experience
- Able to interpret engineering drawings
- Sound computer skills
- Capacity to travel
- Water industry experience will be highly regarded
- An Electrical license is desirable; mechanically qualified persons willing to obtain a restricted electrical license will also be considered.

We believe this role provides a great career opportunity for capable and enthusiastic people who want to learn and grow in this industry of the future. Are you up for the challenge?

To apply, please send a covering letter and your resume to:
